

Hose made of elastic PVC with internal coated spring steel spiral. Highly suitable for conveying air, gases, vapors, and liquids.

Temperature range

0 °C to 70 °C

Application ranges

Ventilation, Ventilation, Dust removal, Suction technology, PVC hoses, Exhaust air systems, Suction hoses, dusts and powder, Suction hoses, air and gaseous media, Plant engineering, Roof ventilation, Elastic hose, highly, Blower hose, Air-conditioning and ventilation technology, Fan hose, Ventilation technology, Dust suction

Length

Standard length: 10 m.

Miscellaneous

Standard color: grey, but also available in black or transparent.
Special colors: other RAL colors upon request.

Variant/Detailed View/Recommended connectors

Properties

- Flexible
- Light
- Elastic
- Largely smooth interior
- Wall thickness: 0.50 – 0.60 mm
